ANTONIO SUPAN

SOFTWARE ENGINEER | .NET | INTEGRATIONS |
AI AUTOMATION

ABOUT

Software engineer with 7 years of experience delivering enterprise, public-sector and financial systems across full-stack .NET, SQL, APIs and Azure. Strong ownership of production workflows, CI/CD, automation, stakeholder requests and long-term reliability, with a practical focus on reducing manual effort and support cost.

EXPERIENCE

Oct 2025
Present

COMBIS d.o.o. | Software Engineer / AI & Automation Lead

Lead delivery across projects for Osijek Kindergartens, CARNET, Croatian Customs Administration, Croatian Telecom, Altpro, APIS IT / APIS Centre, Zagreb City Housing (GSKG), Coca-Cola HBC and Atlantic Group. Own full-stack .NET/API work, Azure DevOps CI/CD, integrations, production support and user-request coordination; delegate tasks and turn manual workflows into reusable patterns.

Jun 2024
Sep 2025

Axians Hrvatska d.o.o. | Senior Software Engineer

Senior software engineer on the Ministry visa-system project. Owned full-stack .NET services, integrations, Azure provisioning, infrastructure automation, CI/CD and production troubleshooting. Managed user/stakeholder requests and improved traceability with Logstash/Kibana, outbox processing and idempotent integration flows.

May 2023
May 2024

Eviden d.o.o. / Atos ecosystem | Software Engineer

Full-stack engineer on the eHZZO national healthcare platform, approx. EUR 17M. Delivered C#/SQL components, documentation and operational handover focused on maintainability, data accuracy and long-term support.

Oct 2021
Apr 2023

Financial Agency - FINA | Developer / IT Specialist

Full-stack developer on InfoBiz and eFondovi systems. Delivered SQL/backend features, integrations and reporting flows, reducing manual handling and improving data reliability.

Nov 2019
Oct 2021

Financial Agency - FINA | Student Software Engineer

Supported full-stack development and maintenance of enterprise apps, building foundations in .NET, T-SQL, integrations and structured delivery.

SELECTED TECHNICAL AREAS

- | | |
|---|---|
| * Backend/full-stack: C#, .NET, APIs, TypeScript, Vue/React and workflows. | * Data/logging: MSSQL, T-SQL, Logstash, Kibana and troubleshooting. |
| * Infrastructure: Azure, Azure DevOps, CI/CD, Docker, IIS and provisioning. | * Reliability: outbox, idempotency, production support and cost-aware automation. |

PROJECT HIGHLIGHTS

- Lead/client delivery across Osijek Kindergartens, CARNET, Croatian Customs Administration, Croatian Telecom, Altpro, APIS IT / APIS Centre, Zagreb City Housing (GSKG), Coca-Cola HBC and Atlantic Group.
- Large public systems: Ministry visa system; eHZZO national healthcare platform, approx. EUR 17M.
- Impact: faster request handling, CRM/ERP automation, OCR/screening agents and reusable CI/CD/process patterns that reduce manual work.
